

A Breath of Fresh Air

Let Rug Doctor revive your fabrics and upholstery with Oxy Power Fabric Cleaner. Its formula is oxygen boosted to breathe fresh air into your home and car. It's also double concentrated, so you'll get twice the cleaning coverage.

This innovative fabric cleaner minimises foaming for faster drying times, perfect for busy households. There's no need to add Anti-Foam to the recovery tank either, cutting your costs and carbon footprint.

Gentle but Powerful

It's your best prescription for upholstery, as it's designed especially for use on fabric. It's formulated especially for use with the Hand Tool attachment and is safe to use with other leading machines.

Despite its impressive cleaning power, Oxy Power Fabric Cleaner is colour, wool and pet safe. It won't damage delicate fabrics but it will leave them clean and fresh, without fading.

Avoid the over-wetting you may get with some multi-use carpet and upholstery detergents. Even better, the formula doesn't leave a sticky residue. Say goodbye to stains and odours without any sticking around!

Directions for Use

- Shake the bottle gently before use.
- Apply as directed.

Do not use water hot enough to scald. For use on wool, use lukewarm water.

Safety Information

Keep out of reach of children. Use only as directed, wash hands after use. Avoid contact with eyes.

Contains: <5% Polycarboxylates, non-ionic surfactants, oxygen-based bleaching agents, anionic surfactants, perfume.
